When Hitler Stole Pink Rabbit

When Hitler Stole Pink Rabbit is a novel by the British author Judith Kerr and was published in 1971.

Anna and her family must flee because they are Jewish and her father is a well-known journalist, who is against the Nazi regime. As they leave, they can only take one thing with them and Anna decides not to take her favorite cuddly toy, in the hope that she will return to it soon. Then Anna, Max and her mother flee to Switzerland where there they meet up with their father. In Switzerland they live on a farm with another family. The family has two children who are Anna and Max's friends. However, they can't stay there for very long because they have to flee to Paris. In Paris they find out that their uncle has died. For Anna this is worst because she went to the zoo with her uncle every weekend and did other fun things. However, like in Switzerland, they don't raise enough money and so they really start to have problems...

I find this novel is very interesting. because you can learn about how difficult life in Hitler's (during Hitler's regime was) time was. Also, you start to see how easy our life is today. We can be thankful for all the things we have.

The Letter to the King

This book is about the Tiuri. He would have become a Knight, if he hadn't left the church, where he was on nights-watch. He leaves his post because a stranger calls him and gives him a letter to bring to the black knight with the white shield, but when he arrives at the path the stranger tells him, the black knight with the white shield was nearly dead and could only tell him that the murderers were the red riders.

So Tiuri takes up the quest of bringing the letter to the king, whom it was meant for. He takes the ring of the dead knight to identify himself and his black horse to move along faster. As he rides the path to the blue river, he gets robbed and finds shelter in a monastery. One day later, he meets the grey knights, who think Tiuri murdered the black knight, called Edwinem. When he tells them the red riders killed Edwinem, the grey riders agree to give him back the black horse which they took from the robbers. Tiuri continues his journey with a different horse not to be recognized. When he arrives at the source of the blue river, he asks the hermit Menaurus to take him over the mountains to the king's palace. He agrees and together they climb over the mountains.
